Re: PMN P-09-291

Dear [REDACTED]

Enclosed is a signed Modification of the section 5(e) Consent Order for the above-referenced premanufacture notice (PMN). This modification raises the permitted production volume of the PMN substance and lowers the allowed impurities of the PMN substance in products made with the PMN substance. The Modification was effective on October 17, 2013 when signed by the Acting Division Director of the Chemical Control Division of the Environmental Protection Agency.

Please note that I have changed the first testing trigger amount to [REDACTED] which was the amount allowed after the modification signed in 2012, which was previously sent to you.

Thank you for your cooperation in this matter. If you have any questions or comments, please contact Rose Allison, the Program Manager for this PMN at [REDACTED]

Sincerely,

Rose Allison, Program Manager
New Chemicals Management Branch
Chemical Control Division (7405 M)
